

# No rain in Swaziland

## A message from Mandla in Swaziland

*Hello everyone*

*Still no rain in Swaziland.*

*Please continue praying with us until something happens.*

*We need a miracle now.*

*It is getting worse each day.*

**Pupils from St Bernards Primary school had to walk out of the school premises to scout water for cooking and drinking from a community borehole nearby which is also running dry.**

**This used to be a river.**

**I had to stop and watch this cow die on my way home— it is heartbreaking.**

**Pat Millar, the Diocesan Companion Links Officer shares her message from Mandla in Swaziland and asks that we hold our Companions in our thoughts and prayers during this catastrophic drought.**
